Henry is grief-stricken over the wartime death of his brother Charles, a pilot in the RAF. His mourning brings on such a state of depression that he cries out for help in understanding this cruel blow. Unexpectedly, his plea is answered, in the form of Acharya, a Hindu adept who calls on Henry at his home in Ceylon. When Henry asks, Why are you here? Acharya responds, You sent for me. Acharya explains that Charles is very much alive, and offers to demonstrate this fact first hand. So he arranges to meet Henry on the astral plane after he falls asleep at night but it is not just Acharya that Henry meets, but Charles himself! Henry learns how the inner being of every human remains alive after the moment of death, and can interact with loved ones as they sleep, even though the loved ones usually have no memory of this fact when they awaken in the morning. Henry eagerly accepts Acharya's tutelage and guidance as he explores the seven subplanes of the astral world and the mental plane as well. In the process, he learns about the devic kingdom, from fairies to angels, and their special relationship with humanity. He also learns about karma, reincarnation, purgatory, evolution, and much more. This edition is a reprint and features a preface written by Robert R. Leichtman, M.D.

**THIS BOOK STARTED ME ON THE ROAD.**

By A Customer

I was housesitting a friend's place in 1978 when I came across this book. Even though I hadn't lost anyone close to me - I found it a revelation. Since then I have lost a son, my Grandmother and Grandfather, a very close friend and an Uncle. This book inspired a life passion as I have read hundreds of books regarding reincarnation, the cosmos, angels, life on other planets etc. But this story and title has remained in my memory forever. I intend searching for it until I find a copy - to read it again, 21 years later. So much has changed. It will be an even better read now that all this time has passed, and I've experienced more of life. In 1978 A Soul's Journey introduced me to a topic that has become a major source of interest for me; for that I am eternally grateful.

Divine guidance in a book

By Chantal L.

How I came about this book will tell you much about the truth of its teachings. My physical body died on May 15th, 1991 while I was in the hospital. I had never given much thought to the possibility of life after death before this. Everything about shedding my physical body and journeying to this non-physical realm

was new to me. What happened next was extraordinary! Meeting a Being of Light, regaining the memories of who I truly am, of who I was prior to coming to mortality, being given a choice to remain or to go back to mortality, the revelation that I had come to earth to accomplish a mission, etc. Much can be said about this amazing journey but this is not the place to do so.

Little did I know that my Near-Death-Experience (NDE) had opened a door to the other side. Things started happening that I did not expect. I started seeing energy, having visions and even hearing a voice. At first, these things frightened me and I tried to repress them. As time went by, I became more comfortable and started allowing these things to happen. (I found out much later that an NDE will sometimes bring on abilities such as clairvoyance and clairaudience)

The "Voice" as I call it, does not come often but when it does I listen, for it always guides me in the right direction. One such instance took place a few years ago. I had just purchased several books and had left the bookstore when the "Voice" came. It directed me to go back to the bookstore and guided me towards this book, *A Soul's Journey*. I purchased the book and I was reading it on the plane back home the following day. The "Voice" came again and said: "a sister will sit next to you". I was so absorbed by the book that I did not pay attention to the young woman who sat next to me. She initiated the conversation by asking what book I was reading and what it was all about. I told her about the teachings in the book which lead me to also tell her about my NDE. She started crying, telling me she had been praying for over a year asking for a sign that there is life after death. And here we were... this book and I on her path. I never saw her again. But I trust that my story and the teachings in this book came when she needed them.

This is an extraordinary book! Not only is there life after death but there is purpose to your life. You are the physical extension of your divine self. Reading this book will help you understand the journey you are on.

Condensed Truth Packed In A Small Book

By Colin Bayler

This book is THE one book I recommend to all my friends and family. There is so much truth, on numerous subjects, revealed in these pages. Some people have searched their whole lives to discover only a fraction of what can be found here. I'm talking about the author's ability to beautifully describe the indescribable. It's a wonderful story on ALL levels.

It works as a love story, as a guide to the higher planes and as a textbook on reincarnation. One cannot help but be moved and uplifted by the author's experiences.

I have given this book to two people who had terminal cancer. They both said that reading it was the best gift they could have ever received. It gave them a comfort and an acceptance of what was to come that they did not have before. It is a wonderful book for anyone who has ever lost a loved one. It is a book that will satisfy one's own soul about that great unknown....death and the afterlife.
