Obtain this Do-It-Yourself Stitch People By Elizabeth Dabczynski-Bean right now as well as be the quickest individual which finishes reading this book Do-It-Yourself Stitch People By Elizabeth Dabczynski-Bean

Review

I just got the book. OH MY GOSH I haven't been this excited about anything in a very long time!! The book is gorgeous, I am so GRATEFUL it is spiral bound (I take my quilting books to Office Depot to switch them to spiral). I've just thumbed through it, but love it already. And I just turned down lunch with friends so I could read it cover to cover during my lunch hour! --Marie Jeffries

I just went through the DIY Stitch-People book and I just had to let you know it's seriously amazing! I can't wait to surprise my husband with a portrait. We have 2 standard poodles and I love the pattern for them. I can't wait to stitch them up. Thank you so much for sharing your incredible talent! --Erin Fair

I just had to take a minute to say how beautiful the book is! I have been cross-stitching since I was 5 (so, 32 years!), and I have stitched quite a few family portraits for family and friends since Martha Stewart Living published some templates a few years ago. But this book has completely inspired me all over again -- the ideas and variations are amazing. I stitched a family portrait for us in 2011, and I am going to do another one this year using the book. I've had so much fun paging through to find the perfect hairstyles and clothes for my kids. Also, I am a journalist by training (and therefore very picky about the written word), and I am so impressed with the quality of the book. It's been so much fun to see people embracing cross-stitch as a contemporary craft. I am a knitter too, and it seems that craft had its renaissance earlier. I'm so glad cross-stitch is "cool" now! --Becky Sher

About the Author

I absolutely love this book!

By tiffany mathis

I absolutely love this book! I was on the fence at first about purchasing it due to the price point, but it is definitely worth it. It surpassed my expectations and I would recommend this book to anyone who is interested in creating stitch people. Before purchasing this book, I tried to create a cross stitch portrait with what patterns I could find on the internet and it turned out awful! After buying this book I attempted again and with all its helpful hints an numerous combinations of hair styles and clothing options, it turned out fantastic. The book also includes cats and dogs, some accessories and access to newly created patterns e-mailed out by the author (some of my very favorites!).

I LOVE this book

By Cassie Wernli

I LOVE this book. I've had it for about 4 months now and I'm still loving it! I'm doing family stitch people for my Christmas presents, and I love picking out each person and making every detail to look just like them. The possibilities are endless! And I love the thoughtfulness of the gift when I'm done. It really gives you an opportunity to give someone a nice, thoughtful gift, which is hard these days. And they still turn out modern and cute with a nice white picture frame. And frankly it's relaxing to sit down and cross stitch. Love it!

This book is great as a how to guide

By Cynthia D Spann

This book is great as a how to guide. The figures turn out really cute and the instructions on how to customize them are really good.

The only thing that surprised me was the paper the book was printed on. The book was very expensive and I did not expect it to be printed on such thin paper. The pages don't seem like they will be very durable with much use. I would have been happier if it had higher quality - thicker or laminated - pages. If the book is to continue being sold at such a high price, the quality of the pages needs to improve a lot.
