Beware is Right

By Shergie

As I said under "Fatal Debt" this series is excellent with compelling characters, BUT.....I feel as though I have been taken to the cleaners. \$4.99 for this? The story ended at about 84% of this little novella and we still don't have the final answer on the story line. Is this to get me to buy yet another book? OK, it's a business, and I did get "Fatal Debt" for nothing, but charge me a fair price for both up front rather than play games to get my money.

NOTE: I called Kindle and they have given me a credit for this non-book and removed it from my kindles. (I love Amazon for their honesty.) I have asked them to review the price on this. If they reduce the price to something appropriate for a short story (like \$0.99) I will increase my rating to 5 stars - what this short story deserves. Dorothy Howell really is a wonderful writer and I look forward to reading more of her work!

I really enjoyed the first book in the series

By A. Brantley

I really enjoyed the first book in the series, but this one was even better. Not only did the author do a great job at further developing the characters and their relationships, but the ending was awesome. I cannot wait to read the next book in the series.

Another good one

By Vicki W

As soon as I finished the first book in this series I ordered this one. That is a testament to the first book. This book did not disappoint me either. Well written, suspenseful and great characters. I definitely recommend this book.
