Great little piece of military history

By Luceo

This brilliant little book covers the history of Edinburgh Universities Officers Training Corps up to the present day. It is clearly written and full of interesting detail about this unit, one of the oldest in Scotland, and builds on its strong sense of identity. It is the perfect gift for former members of the unit past present and future, and will no doubt be bought in droves to be signed by Officer Cadets and staff at farewell events. But it is also of academic value to anyone interested in how Britain developed its approach to recruiting and training Army officers over a period of more than one hundred years, and how OTCs became part of the Royal Military Academy Sandhurst.
