UFO Space Intelligences Contacts and Technique

By Space Intelligences

It has been experienced and said

"Truth is Stranger than Fiction".

How To Contact Space People by Mr. Ted Owens

reveals how strange Reality can be when experienced outside the human value system.

This is a very unique AUTHENTIC UFO contact manual shunned by mainstream xenophobic human society and media as being too fantastic to be true or in any way relevant to humans and the human value system.

However this manual has nothing to do with The Occult, since neither Ted or SI's supported the secret human cults who rule over most societies.

In its original 1969 Saucerian Press form, this is 96 full letter-sized pages with the pages printed in a large easy-to-read font. It includes several photos and a sketching and water colour front cover representation of other-dimensional space lifeforms.

A price for this might be several hundred dollars but the manual's contents and implications are priceless.

Ted Owens claimed to be the one and only incarnate person since Prophet Musa to have ACTUAL reliable two-way contacts with an extremely advanced Form of Life called

Space Intelligences or SI's

SI's are far advanced beyond any humanoid form of life and this manual's title words of "Space People" limit the proper description of Space Intelligences who are to people like what people are to micro-organisms in Nature, only much more advanced.

SI's are Other-Dimensional Very Advanced Very REAL Beings.

Mr. Owens was one of the only People on Earth to specially tune and activate his own brain, by plenty work and expert techniques, to maintain contact SI's without suffering neurological damage, in the form of heart attacks, brain blood vessel ruptures (haemorrhages) or nervous breakdowns as experienced by most other SI contactees and contacts.

This is mostly about Ted's life and SI-related demonstrations when Ted lived in Philadelphia, PA, USA, in the late 1960's and was busy contacting media outlets and UFO organisations, trying to have People recognise his ACTUAL contacts with SI's, Who were trying to prevent a catastrophic disaster happening to the Planet, due to human misactivity, especially from within the USA, and especially due to Evil Magic, such as nuclear weapons and nuclear weapon delivery systems, such as missiles.

There are various references and techniques for contacting SI's in a smaller section of this book, while the majority of the manual gives plenty evidence, including five exhibits, giving ample evidence of SI interaction with Mr. Owens, to include accurate predictions of hurricanes (Atlantic cyclones or Atlantic typhoons), tornados and earthquakes affected by SI's.

Also included, are truthful testaments to the UFO ability of SI's to disable the electric system powering World City, and supposedly, to reverse the magnetic force fields of the entire planet.

Ted Owens writes in the After Word:

"As this book was in final editorial production I was advised by the Si's that each copy will be coded (charged) so that whoever reads it will activate power from another dimension, placing the reader en rapport with the Si's."

Ted Owens' style of writing is very interesting to read, since Mr. Owens was highly intelligent and yet had excellent ability to get his message, and SI's Messages, across to People, including the CIA, in an easy-to-understand manner and language, whether spoken or written.

There is also a Question and Answer section between a student, Chuck Jay, and Ted Owens as the final chapter. This book was well-g geared for a younger audience, the open-minded minority or anyone interested in REAL LIFE adventure, to include Ted's many REAL LIFE death-defying experiences and Ted's amazing abilities, such as his capability to hypnotise other People by staring at them.

Here are two short Q's and A's:

Q. Is it possible that we can ever reach the Si's level of intelligence? You know, like being able to move things with our minds, and so forth.

A. Absolutely impossible. They have different powers than we. They have different laws of nature. You see, the Si's are in a different world entirely. They are in another dimension. But they have discovered how to switch from their dimension into our dimension. Thus they have access both to their world and our world, while we are limited to our world. So we could never do what the Si's can do.

Q. In other words, we are completely different, then, from the Si's.

A. Yes, completely different.

It has one chapter that is definitely on-topic titled

How You Can Contact The SI's

with plenty telepathic and mentalist technical information, while the majority is about Ted's exploits, and SI demonstrations, to include many clippings and quotes from newspapers and letters, relating to the major UFO-caused blackouts in World City.

Be Forewarned:

Two prominent psychic and UFO researchers

D. Scott Rogo and Dr. John Mack of Harvard

were murdered or killed after they studied and gave credible public testimony concerning Mr. Owens, Space Intelligences and UFO's.

Mr. Owens and Otto Binder, his biographer, openly warned of potential danger to UFO students or anyone contacting Space Intelligences:

There has been surveillance, intimidation, harrassment, assaults and possible abudctions, tortures and murders of UFO researchers and witnesses.

For an interesting book about someone who was very much "in tune" with what Mr. Owens was concerned with, and even spoke and wrote similar to Mr. Owens, perhaps read

The Autobiography of Malcolm X by Alex Haley.

Several books that Mr. Owens suggested as valuable resources for contacting SI's are still available:

The Roth Memory Course by David Roth

Autoconditioning by Dr. Hornell Hart

Secrets of The Ages by Robert Collier

If unable to locate Autoconditoning by Dr. Hart, the nearest book I could find is

Self Hypnotism by Leslie M Le Cron

Also, Mr. Owens recommended reading

The Sky People by Brinsley Le Poer Trench

It is possible that after reading books like these and contacting Space Intelligences, You will no longer say

"We are only human"

and will gladly sing

Strange Days Have Found Us

or

People Are Strange

My experience with the book

By James Sikes

In the early 1970s I tried to listen to an audio tape of how I could make contact with ETs. However, I 'passed out' (went to sleep) after the tape began. The same thing happened when I tried a 2nd and also a 3rd time, so I concluded that it was simply too advanced for my conscious mind, and let it go.

A year or so later I asked a very advanced mentor of mine about making contact, and he told me "We'll talk about this tomorrow." . The next day when we met, he showed me a book, opened the page to reveal a disc taped to the inside cover, and gave me the instructions to "read this book completely, at least twice, before you ever touch the disc." I did as he instructed, and the rest of this testimonial will reveal what happened. The name of the book that my mentor handed me was "How to Contact Space People" by Ted Ownes, also known as "PK Man", by the SI.

The possible reality of actually making contact with extraterrestrials still scared the heck out of me, so I proceeded slowly. Once, when at Flagler Beach, in Florida, with my wife, I called the SI. We watched as lights shot down towards the ocean, only to make a 90 degree turn, and come in our direction. As they got closer my heart would start to race, and when they got "too close" I asked them to go away, and they did..

Later, I approached my genius cousin (thought I might be braver with company), and gave him the book to read, along with the disc and the same directions my mentor gave me. That evening, when I returned home from an outing, I found the book, the disc and a note scrawled in emphatic print that said "Never talk to me about this again!" It was over 30 years before I ever mentioned this to my cousin again, and his only comment was "They came!"

At this time in my life, in the early 1970s, I was searching hard for anyone to show me "What doesn't change?", in other words, "What is real?" or "What is God?" All different words for the same thing.

Finally, one night when alone in my room, I put forth a summons to the SI. There was a bright light in my room, and all of a sudden the SI that is drawn on the front cover of the book was standing there in front of me. With the purest telepathy I've ever experienced, he said: "You called, what do you want?" The words flowed from his heart, to my heart. There was no mouth, nor vocal cords involved, just pure, clear understanding. I replied back to him, "From you, nothing.", and he left. I was thankful that he left, as he was quite intimidating, and very, very advanced, as compared to us. Also I saw that he had nothing to give me other than intellectualism, and as I was seeking Truth, and Truth is not intellectual, I saw he had nothing for me.

So, this is my experience with the book "How to Contact Space People." With the disc in hand, and the book to guide you, any earnest student can make contact with the SI people. And in hind sight, I can tell you that there is absolutely nothing to be afraid of.

By Pathfinder

This book had several positive review and I heard it discussed by Jeffery Mishlove on the Youtube channel "Thinking Allowed". This book is a poorly written account of this mans supposed alien contact through consciousness. The book is horribly written. A babbling history of weather events this guy believes that he created through mental imagery which then coalesces into alien contact. I hate to tell the guy there are actual experimental methods to prove/disprove his theories (he's dead now I believe). And of course he doesn't write about the times it didn't work. If you are interested in alien contact, there is only one chapter in the book and there are other free sources that all center on meditation and consciousness. This book is now a coaster.
