decent, but not what i was after...

By Mindful Consumer

as a lifelong pianist, i am always looking for what i consider to be 'proper' arrangements of music (what the artist actually plays). while i am still glad to have this book of music, the arrangements are not what i was hoping for. as with most modern sheet music books, the arrangement has a somewhat accurate base line, however the treble line is a semblance of what the artist is singing, not the actual music.

this book would be recommended to someone who wants to hear what the song sounds like with the artist singing...and not what they are actually playing.

the song listings are as follows:

born to die
off to the races
blue jeans
video games
diet mountain dew
national anthem
dark paradise
radio
carmen

million dollar man
summertime sadness
this is what makes us girls
without you
lolita
lucky ones
ride
american
cola
body electric
blue velvet
gods and monsters
yayo
bel air

hopefully this helps in a decision to purchase this book or not. sheet music direct allows you to see the first page of each song to check the arrangement before you purchase a song. i have found many sheets that are quite good arrangements this way.

Now you can make her songs your own

By Savvy D

Lana Del Rey is one of the most interesting song writers out there, and I think some of her songs will become classics. This edition goes deep, capturing some of her Lizzie Grant stuff like "Yayo" in the "Paradise Edition". I wish it also had "Hundred Dollar Bill." I wish this edition also had Young And Beautiful, but it doesn't. Fortunately, the discounted price makes up for the extra dough I will be shelling out for Young And Beautiful. I'm looking forward to singing though the songs. And maybe even doing some of it as jazz arrangements with a band. I'm trying to figure out why another person ordering this was upset that the melody lines are only approximations of what the song actually is. You can't always capture someone's vocal style with written notes, and most of the American Songbook is meant to be performed to taste. And even Mozart is edited by those who have opinions about what the diacritical marks should be. Take these songs and make them your own. Lana would like that. (And so would Lizzie

The arrangements are pretty good. Music is excellent for piano. Easy to medium level.
