MEDICAL MONSTERS: NURSES AND DOCTORS WHO KILL BY ROBERT KELLER PDF

The lives and dreadful deeds of 20 horrific medical serial killers, including:

Genene Jones: a truly monstrous paediatric nurse who murdered as many as 47 babies and children entrusted to her care.

Glennon Engleman: a rather unconventional dentist who moonlighted as a hitman and murder-for-profit killer.

Michael Swango: a deadly doctor who took genuine pleasure in poisoning his patients and colleagues. Killed at least 60 in an intercontinental murder spree.

The Lainz Angels of Death: four lethal nurses who turned the geriatric ward at an Austrian hospital into their private killing field.

Gwendolyn Graham & Cathy Wood: lesbian lovers who got their kicks by suffocating the elderly patients under their care.

Teet Haerm: police pathologist who spent his nights hunting prostitutes in Stockholm, Sweden. Haerm actually performed autopsies on many of the women he'd killed.

Orville Lynn Majors: an ICU nurse with a deep-seated hatred for his elderly patients, Majors is suspected of over 100 murders.

Kimberly Saenz: addicted to prescription drugs and with her life falling apart around her, Saenz struck out at helpless patients, injecting them with bleach.

Donald Harvey: dubbed the "Angel of Death," Harvey killed at least seventy hospital patients by suffocation, poisoning, drug overdoses and other methods.

Thomas Neill Cream: London's East End had barely recovered from Jack the Ripper when Dr. Cream arrived on the scene, dispensing agonizing death with his special little pills.

Another Solid Volume on True Crime from Robert Keller

By LiterallyLiterary

Very good stuff in these pages. Robert Keller has given a good introduction to a number of notorious medical killers in this book and done it in such a way to temp the reader to do further research on their own.

A good example of this is the section on Harold Shipman. Shipman is worthy of a book exclusively about him, and there are a few of them out there. Keller gives enough information about Shipman to give a good general overview of the man and his crimes for those with a passing interest, but also enough information to encourage those with deeper interests to dig further.

Money well spent here.

Great book, love Robert Keller

By rkrystofolski

Great book about Doctors, Nurses and Paramedics who killed their patients for a variety of reasons, one of the most twisted being that they gave the patients dangerous drugs to induce a medical emergency so that they could step in, save the patient and receive praise but unfortunately a lot of times these killers vastly overestimated their skills to save the patient and they died. It's a great book any true crime fan would love

Justs glosses over the monsters, not very in depth

By nicole

This book is interesting. Its a quick read. I guess I was just expecting a little more. It only gives small amounts of information on what actually occurred. Doing some research of my own on some of the monsters, there is sooooo much more there on them then what is represented. Each one could have their own book. It is a quick interesting read tho.
