It is 1948 and Britain is struggling to recover from the Second World War. Half French, half English, Marguerite Carter, young and beautiful, has lost her parents and survived a terrifying war, working for the SOE behind enemy lines. Leaving her partisan lover she returns to England to be one of the first women to receive a degree from the University of Cambridge.

Now she pins back her unruly auburn curls, draws a pencil seam up her legs, ties the laces on her sensible black shoes, belts her grey gabardine mac and sets out towards her future as an English teacher in a girls' grammar school. For Miss Carter has a mission--to fight social injustice, to prevent war and to educate her girls.

Through deep friendships and love lost and found, from the peace marches of the fifties and the flowering of the Swinging Sixties, to the rise of Thatcher and the battle for gay rights, to the specter of a new war, Sheila Hancock has created a powerful, panoramic portrait of Britain through the life of one very singular woman.

Historical review of 50 s 60s70s but no depth to any of the characters so really rather dull unfortunately.

Nope sorry ! ... Historical review of 50 s 60s70s but no depth to any of the characters so really rather dull unfortunately ... At the beginning marguerite is described as an exotic fashion forward French lady with an exciting secretive past in wartime ... But as the story unfolds she develops into a bit of a pathetic frump ... I was disappointed and especially so when she meets up again with marcel at the end who has remained in his hamlet all those intervening 30 + years farming ? ... Please ... No ... I LOVE Sheila Hancock as an actress ... Not so much as a writer unfortunately ,, I wouldn't recommend this book unless to a very young person who would like an overview of English history after the way to the 80s ?

I did not like it immature writing and it felt like a school composition where you had to include this, this and this etc.

Too long

By Amazon Customer

I managed 3/4 of the book. I just had to give up. I don't think it was particularly well-written. I thought the beginning was quite interesting, as it described quite well post war England but the book was really about the trials and tribulations of education and two quite boring characters. Enough said.....
