MY SEDUCTIVE CUBA BY CHEN LIZRA PDF

Enough books have been written about Cuba to fill an entire library, but few take the approach Chen Lizra does with “My Seductive Cuba.” Deeply personal and always engaging, Lizra — an Israeli-born dance instructor and entrepreneur now living in Canada — fuses history and politics with her real-life experiences among the people of this often-visited but little-understood island. The result is a moving portrayal of Cuba on the verge of historic change. Packed with practical information on where to go in Cuba, what to pack and the best ways to get there, “My Seductive Cuba” also helps readers ferret out persistent opportunists while finding Havana’s best reggaetón, flamenco, jazz and salsa clubs. A glossary of Cuban slang and a description of the Santería religion — along with a vivid chapter titled “Getting Possessed” — makes Lizra’s humorous travel guide even more compelling. This is one book you won’t want to be without, even if you don’t plan on going anywhere!

If only ALL travel guides were written this way~!!
By Jennifer Chatham
My Seductive Cuba is a unique travel guide.

Author Chen Lizra takes travel guides to a new level. This very informative guide will take you wherever you want to go in Cuba. She explains the people, the culture, the ambiance and the all that makes Cuba the country it is.

The reader is lead on a journey deep into the soul of Cuba and Cubans alike. You are shown the mystery of seduction and how to be prepared for it if you intend on traveling to Cuba. You are given detailed descriptions of the landscapes, the streets and how to prepare yourself for any emergency.

Everything one needs to know about traveling to Cuba is shared including customs, passports, visas, currency, and much more. You are shown what to pack for each season, opportunities to find the best dance clubs, tips on health care and water, toilets and their filth are explained and how you should always carry the basic essentials with you wherever you travel.

The author explains opportunists and what to stay focused on if accosted by such people. The different styles of dance are explained and what to expect on any dance floor. We are also given a glimpse into the history of Cuba, her politics, her heroes and her survival.

The book gives examples through pictures and extra reading suggestions are given as well as, web sites to further investigate your trip to Cuba. The author has given lists of countries that are eligible to travel to her

shores as well as which airlines and travel agencies are best suited for you. This in-depth guide will give you everything you need to know about traveling to Cuba and where to find more if it doesn't.

I would give this a five out of five stars, as a travel guide it is one of the best I have ever read. I loved the charm and direction the author wrote with and her explanations of Cuban society was interesting to comprehend. Chen Lizra created a romantic ambiance within these pages that the reader finds it hard to resist the urge to travel to Cuba and investigate for yourself what Chen is tantalizing you with.

I found the explanations about the culture and the people to be excellent, something you don't find in most travel guides. Her descriptions go beyond the "cut-and-dry" approach found within most guides. You are swept up in the prose and can almost feel yourself seductively swaying beside the author as you tour the history found within the boundaries of Cuba.

My mother has had the pleasure to travel to Cuba and is looking forward to her return; she loved the people and experience and I was able to see the correlation between her memories and the words shared by the author. However, I'm not so sure about the seduction aspect of the Cuban way, I am a Canadian with old-fashioned principles and I am quite shy when it comes to any kind of attention, so I'm sure I'd be blushing a mad storm if I were ever fortunate enough to travel there myself. Thank you for the tip on that Ms. Lizra, I thought my mother was exaggerating and now I see, she was not!

Even if you are not traveling to Cuba, this book will give you a different outlook on the Cuban people with an honest and invoking approach. The political myths are explained with clarity and gives the reader a different insight into the embargo between the United States and Cuba. Thoughtful, informative and witty, My Seductive Cuba is a travel guide you won't want to miss!!

HER SEDUCTIVE BOOK

By Zvi

"My Seductive Cuba" is by far the best travel guide to Cuba I have ever read, but it is really much more than that. This fascinating book is by itself a magic voyage to this unique island. Chen Lizra is not only detailing all the practical data which every tourist needs, she takes you along for a tour deep into the intriguing culture, and sub-culture, of the place and its people. In this book, the sophisticated traveler can really feel the heartbeat of Cuba, see the colors and smell the scents. In her personal and most engaging style, Chen Lizra paints beautifully a realistic picture of the true Cuba, guides you about what to do and what not, and provides you with everything you need to make your trip an enriching and fun experience you will never forget. As a frequent visitor to Cuba myself, I highly recommend this book, even for readers who have not planned to visit Cuba any time soon.

Back from a Beautiful Vacation to Cuba

By Michael Pangas

Being a "gringo" in South Florida, Cuba is a big part of life here. I know many people of Cuban ancestry, and Cuban news is a constant on our local television stations. But I had no idea that reading Chen Lizra's book "My Seductive Cuba" would provide me such a delightful and enlightening experience. In fact, I feel like I just spent the last week on the streets of Cuba with Chen as I read of her love affair with the country.

Chen's book is far more than a guide book. It is a personal account of how she fell in love with a charming and seductive country. It offers all the essentials of visiting Cuba whether you decide to go the luxurious hotel route or the far more "raw" approach of a casa particular. This book is a true MUST for anyone planning to travel to Cuba, but also an essential history and analysis of a country like no other. Since Chen is

not an American, she gained instant credibility with me when discussing the political situation of Cuba.

I highly recommend "My Seductive Cuba" and commend Chen Lizra on an amazing job done. I now have a new understanding and appreciation of a country that I thought I knew "enough" about, but Chen certainly proved me wrong.
