Laura Day has sold millions of copies of Practical Intuition and continues her advice here with tips for improving your career using your own intuitive skills. She says that people are more apt to use their intuition about commonplace issues than they are about investment or business practices, a horrible waste of intuitive powers. Through dozens of exercises, Day describes how you can boost your intuitive power, "become" your competition, and better predict the future. Day makes no guarantees that you'll pick the next blue-chip bond or invent the next wheel, but she does assert that your life can't help but improve if you take her ideas to heart. This book is a combination of Jon Kabat-Zinn's, mindfulness meditation theories and What Color is Your Parachute-ish self-reflection.

From Library Journal

Day, who teaches private seminars on using your intuition, shares tips on becoming more intuitive to liberate your inner financial genius.

best of the lot, for application to daily life, probably

By David

Laura Day's books on intuition are useful. This one has a lot of exercises. Now some people dismiss intuition as "airy-fairy". I got my introduction to the need for intuition in the military, which teaches this very effectively- you get a lot of pain, or even killed, if you don't use it. That is totally aside from the remote viewer stuff. I like her approach to teaching intuition, it is very practical. Navigating by Intuition: How to Follow The Signs, The Intuitive Way: The Definitive Guide to Increasing Your Awareness, and Integrated Intuition: A Comprehensive Guide to Psychic Development are also out there. When I first learned to knap flint, I saw pages and pages of how-to, with diagrams, etc., it seemed like the most difficult thing there could be. Then I was in a class- and had a workable arrowhead in 5 minutes. You just do it! Leap in, and do it! What does your bedroom look like? A picture came to mind. You successfully mastered intuition, and remove viewing! Yes, it's that easy, as long as you don't block it. Laura says this pretty well.

Honest with you, I do imitate what she wrote here, how to find the lost object, it is totally work fine.

Very recently found the SD card inside of a paper back, and my husband car key was in a bucket in a garage one time, find a small work to suggest to put a pair of shoes, if feel agree with her some how, it might work for you too.

Loved it! Practical and Useful

By Jeffrey Rich, BS, LMT

This book was great! I loved doing the exercises and learning more about how **my** intuition works. At last, a book that has down-to-earth, simple and useful exercises that anyone can follow. If you understand in advance that many, if not most, of the exercises are 'blind readings' about questions you've already written down, this can be a helpful fact to keep you on track. Trust that Laura Day knows what she's about and just do it.
