This book is total garbage. A) THERE IS NO TEXT IN THIS BOOK

By RobinTheBrave

This book is total garbage. A) THERE IS NO TEXT IN THIS BOOK. It's ALL diagrams and tables. I literally could not find a single sentence in this book... ANYWHERE. B) A solid 70-80% of the content is EXACTLY THE SAME as the material presented in "Different Functional Modules in SAP: Related To SAP BW". Hard to NOT duplicate content when both "books" are nothing but diagrams and tables, I guess.

Avoid KS KS. These things don't even qualify as books. They're more like long PowerPoint slideshows. ... with no sentences.

Very good book

By Devendra

Worth to purchase it. It provide general idea on some modules. The book is small enough to go thr within couple of hrs
