Great for your coffee table and a talking piece

By CMarz19

This book is essentially a tribute to the last 50 years of the Sports Illustrated Swimsuit issue. The book is large in size and is full of thousands of high quality images from the iconic magazine. There are lots of pictures that made the cut, plus a lot of extras and behind the scenes pictures to give the reader a more personal, in the moment feeling of being there at the shoot.

The pages are thick paper and the ink quality is high. Very sharp colors and hardly any blurring throughout the book. Definitely a nice book to have on your coffee table. Since it's Sports Illustrated, the pictures are classy and tasteful enough for any audience.

A solid buy if you like your coffee table books big.

By rodney nunley

If you are looking at this on Amazon there's a good chance that I already know two things about you. First, you like looking at women in bikinis. Second, you really like looking at women in bikinis.

So buy the book already. It's a huge book with some really top notch photography of girls in bikinis in it.

Seriously. It's a very big book.

When you're done looking at it keep it by your bedside. If someone breaks into your home you can use this book as a self defense weapon* to protect your home.

It can also double as a coffee table that you can place other (much smaller) coffee table books on.

I plan on taking it on any plane trips I take in the future. If the plane crashes into the ocean I can use the book as a raft to save the passengers, crew, and most of the luggage.

A great book for several reasons. Buy it already. If your wife gets mad at you for the purchase you can just open the book outside and use it as a tent when she throws you out of the house.

Lovely

By Amazon Customer

Ordered this for my husband's 58th birthday. He thinks it's a beautiful book. The girls and locales are lovely. It's really in the category of "art book." Large format and nice thick paper. Well made book. Worth it.
