Kylie Moore has a secret, one she and her adoptive father have carefully guarded for over a decade since the night her parents disappeared. However, when she is randomly attacked one night in her apartment complex's parking lot, that one violent act sets in motion events that reveal not only her long-dormant shifter heritage in the worst possible way, but could also railroad her efforts of finding out what really happened to her parents.

Suddenly finding herself the center of attention among Riverford's shifter clans, Kylie's only hope of navigating such a dangerous minefield of politics and perpetual battles over territory is Hunter, a too-sexy-for-her-peace-of-mind jaguar shifter that might be her key to gaining insider access to the hidden and secretive shifter society.

Now Kylie must decide whether to integrate more deeply into Hunter's jaguar clan in order to take advantage of this rare opportunity or to run while her secret still remains uncovered. To stay would mean deliberately putting herself in more danger than Kylie may be prepared to handle, especially when Hunter, the person she must rely on, may be hiding something as well.

Serial novel

By Hobo

I am less than thrilled that this novel is a serial. I guess that's the trend now, especially for writers of this type of series. The next section 130 pages costs \$2.99 which seems high to me for that many pages, I not sure this book has that high a value.

Good new series

By cheri

Good new series. I read part one and immediately got part two--from Kindle Unlimited. Great option. Ms Rayne doles out the clues to the mysteries to keep us wondering. We start with action right away. Kylii is captured and riding in a trunk. There have been multiple cases of missing women in the area. Is she about to be the next? When all other efforts fail and she is about to be tortured, she suddenly shifts. She has never shifted before. Quite a surprise. But is it enough and what are the repercussions?

Result one she meets Hunter, another Jaguar shifter who has some news for her. There is a whole society of shifters of many kinds around. What does that mean for her? For them? For her Family? And is she out of danger from her captor who got a way when she shifted.

She is hunting for her missing parents, and knows more than she is saying. Find out more about these mysteries and I suspect there are more in store as we read on in this four part SERIAL--note this is not a stand alone but priced well and available with Kindle Unlimited.
