The definitive book about how Germany and the Habsburg Empire conducted the war (WWI)

By Carrosio Roberto

Professor Herwig's study of Germany and Austria-Hungary in World War I has long been recognized as the best book in any language on the subject, by revising and updating his original work he has ensured that his book will remain indispensable to anyone seeking to understand the actions and the experiences of those two powers in the war.

Indeed, this book is the last edition of a book first published on 1997, that has remained unmatched since then, this new edition includes new material on the domestic front, covering Austria-Hungary's internal political frictions and ethnic fissures and more on Austria-Hungary and Germany's position within the wider geopolitical framework.

This book begins examining how every power got involved in the war, and which war plan was prepared by them. The book , then follows the development of the conflict, with special attention to the main battles: Tannenberg, the Marne, Gallipoli, Western Front on 1915, Verdun, the Somme, Lutsk, Romania, U-boot warfare, the Nivelle Offensive, Caporetto, Operation Michael.

Three chapters of this wonderful book are dedicated to examine the effects of the total war imposed to the Central Powers .

The book is full of first hand accounts and of detailed maps; no important aspect of this terrible war is missing.

As the famous historian Hew Strachan says : " If you read one book in order to learn about the performance of the Central Powers in the war, this is it" !

REVIEW OF WWI BY THE GERMAN HERWIG

By J. Kellum

A very detailed account of the Great War from the German perspective. Hitler was, indeed, born at Versailles. Woodrow Wilson's role is thoroughly covered.
