Interesting that this book is so expensive, probably out of print...

By Neil F. Sambol

I've read this book, twice. It is nice and worth about \$10.00. A MUCH better book, that is about \$3.00 on Kindle is - Channel Surfing: Riding the Waves of Channels to Profitable Trading. IMHO, this book is about 10x better than Trading the Regression Channel.

Your mileage may vary.

Review

By Partha Sarathi Banerjee

Excellent Book for serious Trader, but there is lot of improvement needed as far as the laser focus required for Trading

3 of 5 people found the following review helpful.

Trading Stocks Utilizing Linear Regression Channel

By Steve

This is the best book I have found regarding the Stock Market and Linear Regression Channel. The book is well written and easy to understand. If the author comes out with another book I will buy it. Also check out Channel Surfing by Parsons and Day Trading With Lines In The Sky by Muehlberg as secondary books to this one
